SOFTWARE ENGINEER / FULL-STACK DEVELOPER

EXPERIENCE

Software Engineer (Sole Developer) — An Giang Ferry JSC (AGF) Oct 2025 – Present

- Built the AGF ticketing & ferry operations system from scratch for 7 ferry terminals, ~60 users, handling 15k–40k tickets/day.
- Delivered 2 web apps: a ticket-selling web app and a data/invoice management & revenue reporting dashboard.
- Designed an on-prem architecture with a self-hosted Admin Server (central management/reporting) and Mini Servers deployed per terminal for local operations and resilience.
- Integrated NanoPi-based ticket scanning/validation devices; implemented backup/restore and failover to minimize downtime during network/device incidents.
- Replaced the legacy system without source-code access, improving sales/validation speed and usability for non-technical operators; reduced ticket validation latency by ~75% in production workflows.

Tech: Go, SQLite, REST APIs, Windows scripting (.bat/PowerShell)

Application Developer (Intern) — Honest Agency (Canada) Sep 2024 – Dec 2024

- Contributed to a prototype AI-assisted business dashboard for performance analysis, CRM data management, and reporting/insights.
- Evaluated and implemented a low-code analytics stack (NoLoco + Airtable + Zoho Analytics), balancing delivery speed vs cost/complexity.
- Took PM-style ownership: gathered requirements, clarified scope, prioritized features, and aligned weekly goals with stakeholders.

Tech: Go, SQLite, REST APIs, Windows scripting (.bat/PowerShell)

WordPress Developer (Freelance) — Check Unlock VN Apr 2024 – Jun 2024

- Delivered a WordPress website that lets customers look up information from existing data and submit requests to the shop.
- Developed custom WordPress features/plugins in PHP based on client needs.
- Built Telegram chatbot automation hosted on Cloudflare Workers reaching ~1,500 participants in ~2 weeks.

Tech: WordPress, PHP, Telegram Bot API, Python, JavaScript

EDUCATION

Red River Polytechnic

Diploma — Full Stack Web Development – GPA 3.3

Winnipeg, MB

2023 – 2024

St. James Collegiate

High School Diploma - GPA 3.8

Winnipeg, MB

2019 – 2023

SKILLS

- **Languages:** Go, TypeScript, JavaScript, SQL, PHP, Python
- **Frontend:** React, HTML/CSS, WordPress, SCSS
- **Backend:** REST APIs, JWT Auth, net/http
- **Databases:** SQLite, PostgreSQL, Airtable
- **Tools / Platforms:** NoLoco, Zoho Analytics, Cloudflare Workers
- **Systems / Operations:** Windows (PowerShell/.bat), Backup/restore, failover
